Static Terms — Ira (Rumik Intelligence Private Limited) as Buyer App on ONDC

Version 1.0 · Effective 20 October 2026 · Domain: Retail (ONDC:RET10–RET19) · Subscriber ID `ondc.ira.so`

These static terms are the standard, transaction-independent terms that Ira, as a Buyer Network Participant, offers on the Open Network for Digital Commerce (ONDC). They follow ONDC's "Reference clauses for drafting static terms of the transaction level contract" (v1.0, 26 Feb 2024). Their URL is sent in every order as `bap_terms.static_terms`; together with the payloads of the order's API calls (including the Seller App's `bpp_terms`) they form the contract between Ira and the Seller App for that order.

Business Partnership Agreement

This Business Partnership Agreement ("Agreement") is between **Rumik Intelligence Private Limited**, a company incorporated under the Companies Act, 2013 (GSTIN 09AANCR5817J1ZS), with its registered office at B210, Krishna Lok Phase II, Daroga Khera, Banthra Sikander Pur, Lucknow, Uttar Pradesh 226401, which operates the Ira assistant and its ONDC buyer application ("Ira" or "Buyer App"), and the Seller Network Participant on ONDC that accepts these terms in an order ("Seller App"). Ira and the Seller App are each a "Party".

Whereas the Buyer App enables buyers to discover and purchase products from sellers on ONDC through Ira, and the Seller App makes its sellers' products available on ONDC; the Seller App accepts these terms by confirming an order (`on_confirm`) whose `confirm` carries them, and the Parties agree as follows.

1. Definitions

1.1 **Business Day**: a day other than Saturday, Sunday or a public holiday declared by the Government of India or the relevant State Government.

1.2 **Confirmation**: the Seller App's acceptance of an order (`on_confirm`).

1.3 **Delivery**: the handing over of the Shipment to the buyer at the address the buyer gave, as marked `Order-delivered` in the order's fulfillment.

1.4 **Order**: a purchase by a buyer through Ira, confirmed by the Seller App.

1.5 **Product(s)**: the goods or services the Seller App lists on ONDC.

1.6 **Settlement Window**: the period after the Settlement Basis within which payment is settled (`@ondc/org/settlement_window`), P1D unless the order says otherwise.

1.7 **Shipment**: products packed together and handed to the logistics provider.

1.8 **ETA**: the delivery time the Seller App communicated for the order (`@ondc/org/TAT`).

1.9 **Hyperlocal**: delivery within city limits. **Intercity**: delivery beyond them.

1.10 **OFD**: orders for food delivery (prepared food and beverages; ONDC:RET11), non-cancellable once accepted unless the order marks them cancellable, in which case the order prevails.

1.11 **Non-OFD**: any other order. **Made to Order**: a non-OFD order made for the buyer.

1.12 **Quality Issues**: including quantity mismatch, wrong item, damaged, expired or spoiled products.

1.13 **RTO**: return of the Shipment to the pickup address.

1.14 **Buyer Cancellation**: the buyer's request to cancel, including refusal to accept delivery.

2. Cancellation before shipment

Order type	Case	Resolution
OFD / Made to Order	Seller App breaches ETA (not shipped within ETA)	Ira pays nothing for the order; the buyer is refunded in full.
OFD / Made to Order	Buyer cancels within ETA, before the order is accepted or before preparation starts	Ira pays nothing for the order.
OFD / Made to Order	Buyer cancels within ETA after preparation started (the Seller App's cancellation terms apply)	Ira pays the cancellation fee the order's cancellation terms state.
Non-OFD	Seller App breaches ETA	Ira pays nothing for the order.
Non-OFD	Buyer cancels before shipment	Ira pays nothing; if a delivery agent was already assigned, the forward logistics cost in the quote.

3. Cancellation after shipment

Order type	Case	Resolution
OFD	Not delivered within ETA + 30 minutes; buyer cancels	Ira pays nothing to the Seller App.
OFD / Made to Order	Buyer cancels within ETA after shipment	Ira pays the order value per the quote.
Non-OFD	Not delivered within ETA + 24 hours; buyer cancels	Ira pays nothing.
Non-OFD	Buyer cancels within ETA after shipment (resaleable product)	Ira pays the forward and RTO logistics cost.

A Seller App that does not answer a cancellation within its `ttl_response` may be force-cancelled (reason `052`); the order is then settled as an ETA breach by the Seller App.

4. Refund, return and replacement after delivery

Order type	Case	Resolution
All	Order marked delivered but never delivered	Investigated by both Parties; the Party at fault bears the order value.
OFD / Made to Order	Quality Issue raised by the buyer with photos	Ira gives the buyer the resolution the Seller App proposes in IGM (refund, part refund or replacement).
Non-OFD returnable	Return within the product's return window	Returned per the Seller App's return terms in the catalog; refund on return QC.
Non-OFD non-returnable	Quality Issue	As OFD.

If Ira gives a buyer a resolution the Seller App did not propose, Ira bears it. A refund the Seller App gives is settled through the order's settlement (RSF).

5. Issue resolution (IGM)

5.1 Complaints are raised and handled under ONDC's Issue and Grievance Management (IGM 1.0.0 and 2.0.0). Ira is the interfacing app; its contact and grievance officer are Aryan Chaudhary (aryan@rumik.ai, +91 89206 54413); buyer support support@rumik.ai, https://rumik.ai/support. 5.2 The Seller App acknowledges an issue within 2 hours (`expected_response_time` PT2H) and resolves it within 24 hours (`expected_resolution_time` P1D), unless the issue states otherwise. 5.3 If the Seller App misses these

timelines, Ira may resolve the issue for the buyer and recover the amount from the Seller App through settlement.

6. Buyer Finder Fee

6.1 Ira's buyer finder fee is the percentage of the order value stated in the search and the order (`@ondc/org/buyer_app_finder_fee_type` / `_amount`), 3% unless stated otherwise, and is unchanged from search to confirm. 6.2 It is deducted at settlement when Ira collects payment, and invoiced to the Seller App with applicable GST when the Seller App collects.

7. Payment and settlement

7.1 Where Ira collects payment (`collected_by: BAP`), it collects through a licensed payment aggregator and settles the Seller App's share per the order's settlement terms: basis `delivery`, window `P1D`, withholding as stated (`0.00` unless stated), less the finder fee and taxes required by law (GST TCS, income-tax TDS). 7.2 Where the Seller App collects, it settles the finder fee to Ira within the same window. 7.3 The Parties reconcile order by order through ONDC's RSF (`recon` / `on_recon`) and raise differences within 7 days.

8. General obligations

The Seller App shall list accurate product information, prices, taxes, availability and serviceability; honour the quote it confirms; keep order states current (`on_status`); and provide tracking where it marks it available. Ira shall show the Seller App's catalog and terms as sent, pass orders, cancellations, returns and issues without delay, and keep buyer data only for the order's purposes.

9. Representations and warranties

Each Party represents that it is duly incorporated, authorised to enter this Agreement, a subscribed participant of ONDC, and compliant with applicable law including the Consumer Protection (E-Commerce) Rules, 2020, the Legal Metrology Act and, for food, the Food Safety and Standards Act, 2006. The Seller App warrants that the products are genuine, safe and as described.

10. Indemnity and limitation of liability

Each Party indemnifies the other against losses arising from its breach of this Agreement, its negligence or wilful misconduct, or its violation of law. Neither Party is liable for indirect or consequential losses. Each Party's aggregate liability for an order is limited to the order value, except for indemnity for violation of law, fraud or breach of data protection.

11. Data protection

Each Party processes personal data received for an order only to fulfil it and handle its issues, in accordance with the Digital Personal Data Protection Act, 2023, keeps it secure, and does not use it for marketing without the buyer's consent. Ira shares only what an order needs (name, phone, delivery address, billing details).

12. Confidentiality

Each Party keeps confidential the other's non-public commercial information received under this Agreement, except as required by law or ONDC.

13. Intellectual property

Each Party retains its intellectual property. The Seller App permits Ira to display its catalog content and marks to buyers for the purposes of ONDC transactions.

14. Performance exceptions

Neither Party is liable for failure caused by events beyond its reasonable control (force majeure), including acts of God, network or ONDC infrastructure outages, epidemics, war or government action, provided it notifies the other and resumes as soon as practicable.

15. Governing law and jurisdiction

This Agreement is governed by the laws of India. Subject to clause 16, the courts at Lucknow, Uttar Pradesh have exclusive jurisdiction.

16. Dispute resolution

The Parties shall first try to resolve disputes amicably and through ONDC's online dispute resolution (ODR) mechanism; failing that within 30 days, by arbitration under the Arbitration and Conciliation Act, 1996, by a sole arbitrator appointed by mutual consent, seated at Lucknow, in English.

17. Miscellaneous

Where the transaction-level contract (the order's payloads, including `bpp_terms`) conflicts with these terms, the order prevails for that order. Ira may update these terms by publishing a new version at a new URL; an order is governed by the version it carried. If any provision is invalid, the rest remains in force.
