Jessy: Static Terms for the ONDC Network (Buyer App, Retail)

Version 0.1.0 · SLIXX Origin Private Limited (CIN U62099AP2026PTC127764), operator of the Jessy app and hellojessy.com · ONDC Subscriber ID 21851 · Subscriber URL api.hellojessy.com

1. Role

Jessy is a Buyer Network Participant. It helps a buyer search, compare and place orders with Seller Network Participants on ONDC by voice or chat. The seller (and its seller app) sells the goods, fulfils the order and sets its own prices, returns and refund policies.

2. Orders

Before any order, Jessy reads back the seller, items, quantities, pack or size, delivery and packing charges, offers, the total payable from the seller's own quote and the delivery address. An order is placed only after the buyer's clear yes to that read-back. The amount at order confirmation must equal the read-back total, or the order is not placed.

3. Payments

Jessy does not collect, hold or transfer the buyer's money. Payment is collected by the seller app: cash on delivery, or the seller app's own payment page at order time (collected_by: BPP).

4. Cancellations

Before dispatch, the buyer can stop an order inside Jessy. After dispatch, Jessy sends a cancellation to the seller on the buyer's request only for reasons it can match to the ONDC retail cancellation codes it supports: delay in delivery (006) and wrong or different item (009). For any other reason, the seller's own cancellation policy applies and Jessy tells the buyer the seller cannot cancel it now. A cancellation counts only when the seller confirms it. If the seller cancels an order, Jessy tells the buyer.

5. Refunds

Refunds, their amounts and their timelines are decided and paid by the seller app under its own published policy. Jessy holds no money and makes no refunds itself. A refund offered by the seller through the grievance process is shown to the buyer, who chooses whether to accept it.

6. Grievances (IGM)

Buyers raise complaints through Jessy, by voice or chat. Jessy raises them on the ONDC Issue and Grievance Management framework (issue / issue_status) with the order receipt as evidence, tracks the seller's response and tells the buyer its status. Grievance Officer: Shiva Kommepalli, grievance@slixx.in, +91 95422 24562. Complaints are acknowledged within 24 hours, with a resolution target of 15 days. A buyer not satisfied can escalate under ONDC's grievance framework and applicable consumer law.

7. Payouts and fees

Since Jessy collects no payment, it makes no payouts to sellers. Any buyer-app finder fee is declared in the search request as a percentage and is settled only under the ONDC Network Participant Agreement.

8. Search display and ranking

Jessy's ranking and display standards are published in its Buyer App Disclosures 1 and 2. No seller can pay for a higher position.
