

BRINGG

Seller App Disclosure on Criteria for Offering Differential Treatment Towards Buyer Apps

(Prepared in accordance with Clause 2.5.4(a), Chapter 2, ONDC Network Policy)

Seller App Details

Seller App Name: Bringg

Domain: Food & Beverage

Effective Date: 20 July 2026

Version: 1.0

Version Effective Date Changes

1.0	20 July 2026	Initial Release
-----	--------------	-----------------

1. Purpose

This disclosure describes the objective criteria adopted by Bringg while responding to Buyer Apps on the ONDC Network.

Bringg is committed to operating in a transparent, fair and non-discriminatory manner. Any operational differentiation, where applicable, is based solely on objective technical, operational, regulatory or commercial requirements and is applied consistently.

2. Criteria for Differential Treatment

<u>S. No.</u>	<u>Criteria</u>	<u>How the Criteria is Measured</u>
1	ONDC Protocol Compliance	Requests must conform to the applicable ONDC protocol specifications and message standards.
2	Technical Validation	Requests must successfully pass authentication, authorization and technical validation checks.
3	Data Completeness	Mandatory transaction fields must be complete, accurate and valid.
4	Merchant Availability	The merchant must be operational and accepting orders at the time of the request.
5	Catalogue Availability	Requested products or services must be available in the merchant catalogue.
6	Serviceability	Delivery location must fall within the merchant's operational service area.
7	Regulatory Compliance	Transactions must comply with applicable laws, ONDC Network Policies and platform compliance requirements.
8	Risk & Security Controls	Transactions may be declined where system-generated risk or security checks indicate potential fraud, abuse or misuse.
9	Commercial Compliance	Buyer Apps must comply with applicable settlement and commercial obligations agreed under the ONDC ecosystem, where applicable.

3. Category Applicability

The above criteria apply uniformly across all merchants operating on Bringg within the Food & Beverage domain.

Any future category-specific criteria will be published through an updated version of this disclosure before implementation.

4. Whitelisting Criteria

Bringg currently does **not** maintain any Buyer App specific whitelisting criteria.

Any Buyer App satisfying the objective criteria stated above is eligible to transact with Bringg.

Should a whitelisting policy be introduced in the future, it will be published through an updated disclosure before implementation.

5. Feedback & Queries

Buyer Apps may submit feedback or seek clarification regarding this disclosure through Bringg's official support channels.

Compliance: compliance@bringg.in

Support: support@bringg.in

6. Version Control

Bringg may review and update this disclosure from time to time to reflect changes in platform functionality, operational processes, regulatory requirements or ONDC Network Policies.

Any revised version will supersede previous versions and will be published before becoming effective.

7. Declaration

Bringg declares that:

- The criteria described in this disclosure are objective, measurable and non-discriminatory.
- Bringg does not provide preferential treatment to any Buyer App based solely on its identity, ownership or commercial relationship.
- Any operational differentiation, where applicable, is based only on the objective criteria described in this disclosure.
- Bringg will maintain this disclosure in accordance with applicable ONDC Network Policies.
