QuID Static Terms for Seller Apps (Version 1.0)

Detail	Value
Buyer app	QuID, operated by Quid Social Private Limited
Version	1.0
Effective date	1 November 2026
Domain	ONDC:RETeB2B (business-to-business retail)
API contract	1.2.5
Published at	https://www.quidcash.in/ondc/static-terms/buyer/v1.0.pdf

These are the standard terms on which QuID, as a buyer application on the ONDC Network, transacts with seller applications and the sellers they represent. They form part of the transaction level contract for every Order, together with the terms exchanged through the ONDC protocol. They sit under the ONDC Network Policy and the ONDC Network Participant Agreement; where they conflict, the ONDC Network Policy prevails.

1. Parties, recitals and acceptance

1.1 This Business Partnership Agreement (the **Agreement**) is entered into between **Quid Social Private Limited**, a company incorporated under the Companies Act, 2013, CIN **U66190KA2022PTC159801**, having its registered office at **#1196, 22nd Cross, 24th Main, Sector 2, HSR Layout, Bengaluru South, Bengaluru, Karnataka 560102, India**, operating the buyer application **QuID** on the ONDC Network (the **Buyer App**), and the seller network participant on the ONDC Network that accepts these terms in a Confirmation (the **Seller App**). The Buyer App and the Seller App are together the **Parties** and each a **Party**.

1.2 The Buyer App has onboarded the ONDC Network as a buyer-side application in the `ONDC:RETeB2B` domain and enables retailers and other business buyers to purchase products using its digital platform.

1.3 The Seller App has onboarded the ONDC Network as a seller-side application and wishes to use the Buyer App's services to (a) reach business buyers on the basis of the criteria provided by the Seller App, and (b) enable those buyers to purchase the products of sellers on the Seller App.

1.4 These terms, together with the terms exchanged between the Parties through the ONDC protocol for an Order (the **Confirmation**), govern the relationship between the Parties for that Order. If a term in the Confirmation conflicts with these terms, the Confirmation prevails for that Order.

1.5 The Buyer App sends the link to these terms as `static_terms` in the `bap_terms` tag of `search` and `confirm`. These terms apply to an Order when the Seller App accepts them by sending `accept_bap_terms` = Y in the `bpp_terms` tag of `on_confirm`, or by any equivalent acceptance under the ONDC API specification. This version is effective from 1 November 2026 and is published at https://www.quidcash.in/ondc/static-terms/buyer/v1.0.pdf.

2. Definitions

Terms not defined here have the meanings given in the ONDC Network Policy or the ONDC Network Participant Agreement.

- **Business Day:** a day other than Saturday, Sunday or a public holiday declared by the Government of India, the State Government of the delivery location or any other competent authority.
- **Buyer:** the retailer or other business that places an Order through the Buyer App.
- **Cash on Delivery Order:** an Order where the payment is collected from the Buyer by the Seller App or the seller at delivery (`collected_by` = BPP, payment type ON-FULFILLMENT).
- **Confirmation:** as defined in clause 1.4.
- **Delivery:** (a) collection of the Shipment by the Party procuring logistics from the agreed pickup location, and (b) delivery of the Shipment to the Buyer at the location the Buyer designated. Where the seller delivers using its own vehicles, the Seller App is the Party procuring logistics.
- **ETA:** the estimated time of delivery communicated by the Seller App in the Confirmation (`@ondc/org/TAT`).
- **ETA Breach:** an Order not delivered within the ETA plus 24 hours.
- **Hyperlocal:** delivery within city or town limits. **Intercity:** delivery beyond city or town limits.
- **Order:** a purchase made by a Buyer on the ONDC Network through the Buyer App, the Seller App and the seller, and any gateway or logistics service provider, as applicable.
- **Product:** goods made available by the Seller App on the ONDC Network.
- **Quality Issue:** includes quantity mismatch, and products that are expired, damaged, defective, spoiled, wrongly packed, wrong items or missing items.
- **RTO (Return to Origin):** return of goods to the original pickup address when an Order is not delivered to the Buyer after shipment, for any reason.
- **Buyer Cancellation:** a cancellation requested by the Buyer or the Buyer App, including the Buyer's refusal to accept delivery.
- **Settlement Window:** the number of Business Days stated in the Confirmation, from collection, shipment, delivery or the end of the return window, within which the Parties settle amounts owed to each other.
- **Shipment:** Products packed together and handed to the Party procuring logistics, or to a logistics service provider engaged by that Party.

3. Cancellation before shipment

3.1 The Buyer may request cancellation of an Order at any time before it is shipped, whether or not the item is marked cancellable. The Seller App is expected to accept the cancellation and not proceed with the Order.

Case	Description	Buyer App liability to Seller App
ETA Breach	The Order is not shipped within the ETA	Nil

Case	Description	Buyer App liability to Seller App
No ETA Breach	The Order is cancelled before shipment and within the ETA	Nil

3.2 For Hyperlocal Orders cancelled after a delivery agent has been assigned, the Buyer App's liability is limited to the delivery charge quoted for that Order in the Confirmation. Where the quoted delivery charge is nil, the liability is nil.

3.3 The Seller App responds to a cancellation request within the response time sent by the Buyer App in the cancel request (`ttl_response`). Where a request on an Order that has already been packed is not answered in time, the Order is not treated as cancelled until the Seller App responds.

4. Cancellation after shipment and RTO

4.1 After shipment, the Buyer or the Buyer App may cancel an Order only by: (a) the Buyer not receiving or not accepting the Products when delivery is attempted; or (b) an issue raised through IGM (Issue and Grievance Management) for a refund because of delayed delivery or another reason, where the Seller App accepts the refund while delivery is pending. A post-shipment cancellation request through the cancel API, or any API other than IGM, is not valid if the Seller App rejects it or sends a negative acknowledgement.

4.2 Liability for post-shipment cancellation:

Product	Case	Description	Buyer App liability to Seller App
Returnable	ETA Breach	Shipped but not delivered within the ETA plus 24 hours	Nil
Returnable	No ETA Breach	Shipped and not yet delivered within the ETA	Nil, as the product is returnable
Non-returnable	ETA Breach	Shipped but not delivered within the ETA plus 24 hours	Nil
Non-returnable	No ETA Breach	Shipped and not yet delivered within the ETA	See clause 4.3

4.3 **Cash on Delivery Orders.** The Buyer App does not collect any payment for a Cash on Delivery Order. Accordingly, for any Cash on Delivery Order cancelled after shipment, including a Buyer's refusal to accept delivery, the Buyer App has no liability to pay the order value, forward logistics cost or RTO logistics cost. For Orders where the Buyer App collects payment, the Buyer App is liable to pay only the forward and RTO logistics cost quoted in the Confirmation for a non-returnable Product cancelled with no ETA Breach.

4.4 Where an Order is returned to origin, the Seller App updates the Order through the ONDC protocol (RTO-Initiated, then RTO-Delivered or RTO-Disposed) with the reason code that applies.

5. Returns and refunds after delivery

Case	Description	Resolution
Wrong order status	The Order is marked delivered but was never delivered	The Parties investigate the source of the issue together. If the source is the Buyer App, it pays the full order value as per the quote to the Seller App. If the source is the Seller App, the Buyer App pays nothing.
Quality Issue	The Buyer raises an issue about the quality of the Products delivered, for returnable or non-returnable Products	The Buyer App gives the Buyer the resolution proposed by the Seller App after its investigation.

5.1 If the Buyer App chooses to give the Buyer a resolution that the Seller App did not propose, the Buyer App alone bears the extra cost of that resolution. The Seller App receives the amount due after the adjustment it proposed.

5.2 Where the Seller App resolves a Quality Issue with a refund, it may refund with or without picking up the Products. Where the refund is with pickup, the Seller App may confirm the refund after pickup from the Buyer.

5.3 For Cash on Delivery Orders, refunds are paid to the Buyer by the seller or Seller App (for example in cash at pickup, by credit note against a later order, or by bank or UPI transfer). The Seller App records the refund through the ONDC protocol so the Buyer App can show it to the Buyer.

5.4 The Seller App responds to a return request within the time limits the Buyer App sends with that request: `ttl_approval` for approving or rejecting the return, and `ttl_reverseqc` for completing the quality check after pickup. A return request not answered within `ttl_approval` may be raised by the Buyer App as an issue under clause 6.

6. Issue resolution timelines (IGM)

6.1 The Buyer App expects the Seller App to respond to an issue raised under the ONDC IGM framework within 24 hours and to resolve it within the times below (Hyperlocal Orders). If the Seller App needs more information, the time to resolve runs from when the Buyer App answers that request.

Category	Sub-category	Code	Time to resolve
Order	Order not received	ORD01	48 hours
Order	Quality issue	ORD02	72 hours
Order	Delayed delivery	ORD03	24 hours

Category	Sub-category	Code	Time to resolve
Item	Missing items	ITM01	48 hours
Item	Quantity issue	ITM02	48 hours
Item	Item mismatch	ITM03	48 hours
Item	Quality issue	ITM04	72 hours
Item	Expired item	ITM05	48 hours
Fulfilment	Wrong delivery address	FLM01	24 hours
Fulfilment	Delay in delivery	FLM02	24 hours
Fulfilment	Delayed delivery	FLM03	24 hours
Fulfilment	Packaging	FLM04	48 hours
Fulfilment	Buyer not found	FLM05	24 hours
Fulfilment	Seller not found	FLM06	24 hours
Fulfilment	Package info mismatch	FLM07	48 hours
Fulfilment	Incorrectly marked as delivered	FLM08	48 hours
Agent	Agent behavioural issue	AGT01	48 hours
Agent	Buyer behavioural issue	AGT02	48 hours
Payment	Refund not received	PMT01	72 hours

6.2 If the Seller App does not keep to these timelines, the Buyer App may take necessary action, including resolving the issue in the Buyer's favour, and recover the resolution amount from the Seller App for that Order through settlement or by invoice.

6.3 The criteria under which a seller may not be shown on the Buyer App because of unresolved customer issues are published on the Buyer App's disclosure page.

7. Buyer finder fee, settlement and taxes

7.1 **Finder fee.** The Seller App pays the Buyer App the finder fee stated in the Confirmation (`buyer_app_finder_fee_type` and `buyer_app_finder_fee_amount`) for each delivered Order (the **Fee**). A Fee of zero is valid. No Fee is payable on an Order that is cancelled or fully returned. If part of an Order is cancelled or returned, the Fee is charged only on the value the Buyer finally paid.

7.2 **Invoicing.** The Buyer App uses its Order ID as the reference for each Order and raises a tax invoice for the Fee, per Order or as a monthly statement. Where the seller or Seller App collects payment from the Buyer (Cash on Delivery Orders), the Seller App pays the invoiced Fee within **15 days** of the invoice date to the bank account named on the invoice.

7.3 **Settlement.** Payment collection, withholding amount, settlement amount, Settlement Window and settlement type for each Order are as stated in the Confirmation. Reconciliation and settlement between the Parties follow the ONDC Reconciliation and Settlement Framework where it applies.

7.4 **Taxes on the Fee.** The Fee is exclusive of goods and services tax (GST), which is charged in addition. Tax deducted at source (TDS) on the Fee, where applicable, is deducted by the paying Party and the certificate shared after the quarterly TDS return is filed.

7.5 **Taxes on the value of Products.** Tax deducted at source under the Income-tax law and tax collected at source (TCS) under GST law on the value of the Products are deducted or collected by the Party required to do so under applicable law. Where the Buyer App does not collect or hold payment for an Order, it has no obligation to deduct or collect tax on the value of that Order.

8. General obligations, representations and independent parties

8.1 All payments under this Agreement are subject to deduction or withholding as required by applicable law and as permitted under the Confirmation.

8.2 Each Party uses its own infrastructure, staff and facilities and bears its own expenses in performing this Agreement, and bears its own legal costs in connection with it.

8.3 The Buyer App makes no warranty or guarantee about the seller, the Seller App or the Products, other than what the seller or Seller App has provided in writing or through the ONDC protocol.

8.4 **Representations and warranties.** Each Party represents and warrants to the other that:

1. it is duly organised and validly existing under the laws of India and has full right, power and authority to enter into and perform this Agreement;
2. it has read, understood and agrees to comply with this Agreement and the Confirmation, which together form a legal, valid and binding contract for the Order;
3. it holds and will maintain all statutory and regulatory permissions, approvals, licences and consents needed to run its operations;
4. it holds and will maintain the title, ownership, licence or right to use the intellectual property it uses under this Agreement and the ONDC Network Policy;
5. all information it submits is true, lawful and accurate;
6. it complies, and will continue to comply, with applicable law in entering into and performing this Agreement;
7. performing this Agreement does not breach any agreement, order, judgement, law or third-party intellectual property right binding on it, or need any consent it has not obtained;
8. it will not make any statement that defames or disparages the other Party, except a truthful statement reasonably needed to enforce or defend its rights, or one required by a court, arbitrator, regulator or legislative body;
9. it will comply with the ONDC Network Participant Agreement, the ONDC Network Policy and other policies prescribed by ONDC; and
10. it will perform its services professionally and in line with reasonable industry standards.

8.5 **Independent parties.** The Parties are independent contractors. Neither is the agent or legal representative of the other, and nothing in this Agreement creates a partnership, joint venture, agency

or employment relationship. Neither Party may bind the other or create any obligation for the other, except as this Agreement expressly provides. Each Party is solely liable for the acts of its own staff, agents and end users that cause damage, loss or injury to the other Party.

9. Indemnity and liability

9.1 Each Party (the **Indemnifying Party**) will indemnify, defend and hold harmless the other Party and its directors, officers, employees, service providers and agents (the **Indemnified Party**) against all claims, demands, actions, liabilities, costs, interest, losses, judgements, fines, penalties, damages and expenses (including legal costs) suffered by the Indemnified Party that arise directly from a third-party claim in connection with:

1. any wrongful or negligent act or omission of the Indemnifying Party, including sharing incorrect or incomplete information about a transaction on the ONDC Network;
2. any breach by the Indemnifying Party of its obligations, undertakings, warranties or covenants under this Agreement, the ONDC Network Policy or the ONDC Network Participant Agreement;
3. any breach of applicable law by the Indemnifying Party;
4. any breach or corruption of data attributable to the Indemnifying Party or its employees, agents or representatives;
5. any act or omission of the Indemnifying Party under this Agreement; or
6. disclosure of or access to Confidential Information in breach of this Agreement.

9.2 The Seller App acknowledges that the Buyer App does not control and is not responsible for the quality, safety, suitability, lawfulness or availability of the Products. The seller and Seller App are responsible for the Products, their price, statutory declarations (including Legal Metrology), delivery, invoicing and refunds. The Buyer App will indemnify the Seller App against claims arising from any warranty or guarantee about the Products that the Buyer App gives without the Seller App's written authority.

9.3 Each Party is liable for loss of or damage to Shipments caused by its own acts or omissions, or those of its employees, agents or third parties it engages, up to the value of the Products involved or as agreed in the Confirmation.

9.4 Each Party is independently liable for the services it offers to end users, buyers and other network participants under its own terms and conditions.

9.5 Neither Party is liable to the other for indirect or consequential loss, including loss of profit or business. For any Order, the Buyer App's total liability to the Seller App is capped at the Fee for that Order, and the Seller App's total liability to the Buyer App is capped at twice the value of that Order as stated in the Confirmation. These caps do not apply to fraud, wilful misconduct or the indemnities in clause 9.1 for third-party claims.

10. Data protection and confidentiality

10.1 **Specified Purpose.** The Parties may share personal data of end users (including the Buyer's owner, staff and delivery contacts) only to fulfil, deliver, support and resolve issues on Orders placed by Buyers (the **Specified Purpose**).

10.2 Each Party, and its employees, complies with all Data Protection Legislation, meaning the Information Technology Act, 2000 and its rules, the Digital Personal Data Protection Act, 2023 and its rules, guidelines and codes of conduct issued by any competent authority, and any other applicable law on the protection and processing of personal data. **Personal data** has the meaning given in the law then in force.

10.3 Each Party processes personal data received from the other Party only for the Specified Purpose and in line with applicable law. In particular, the Seller App and the seller will not use Buyer data received through the Buyer App for marketing, profiling, credit assessment or any purpose other than the Specified Purpose, unless the end user gives explicit consent for that purpose. This clause does not restrict a Party's use of personal data it collects directly from its own users under its own privacy policy and consent.

10.4 Neither Party transfers personal data received from the other to a third party unless necessary to perform this Agreement.

10.5 Each Party keeps appropriate technical and organisational measures to prevent unauthorised or unlawful processing, to protect personal data against accidental loss, destruction or damage, and to ensure the reliability of staff with access to it, at a level of security suited to the harm that a breach could cause and the nature of the data. A Party that becomes aware of a personal data breach affecting data received from the other Party notifies the other Party without undue delay.

10.6 If either Party receives a request from a person for access to personal data, or another request under Data Protection Legislation, the other Party cooperates as far as the law requires.

10.7 **Confidential Information.** All information of a Party obtained, developed or disclosed in connection with this Agreement, including documents, data, business and customer information, trade secrets and processes, is that Party's confidential information (**Confidential Information**). The receiving Party uses it only as the disclosing Party authorises, protects it against misuse, loss, destruction, alteration or deletion, and discloses it only to persons who need to know and are bound by these obligations.

10.8 Clause 10.7 does not apply to information that (i) is in the public domain; (ii) must be disclosed under applicable law or by a judicial or regulatory body; (iii) was lawfully known to the receiving Party before disclosure; or (iv) was independently developed or obtained without use of the disclosing Party's Confidential Information. If disclosure is required under (ii), the receiving Party notifies the disclosing Party in writing, as soon as reasonably possible, so it can seek a protective order at its own cost.

10.9 Clauses 10.7 and 10.8 survive for 3 years after termination of this Agreement, or longer if applicable law requires.

11. General terms

11.1 **Intellectual property.** All intellectual property of each Party, including trademarks, trade names, logos, copyright, advertising copy, material and graphics, remains that Party's sole property. A Party may use the other Party's name and logo only for this Agreement and only with the other Party's prior written approval. Such use creates no right, title or interest in favour of the Party using it.

11.2 **Force majeure.** A Party unable to perform its obligations because of flood, earthquake, storm, fire, accident, strike, lockout, explosion, war, insurrection, riot, embargo, terrorist activity, epidemic, pandemic, act of government, or another cause beyond its reasonable control, or because of a disruption in the ONDC Network, is excused for the duration of that event. The affected Party promptly notifies the other in writing of the event and the expected delay, and may suspend performance from the date of that notice until the cause ends.

11.3 **Governing law and jurisdiction.** This Agreement is governed by the laws of India. Subject to clause 11.4, the courts at **Bengaluru, Karnataka** have exclusive jurisdiction.

11.4 **Dispute resolution.** The Parties first try to resolve any dispute arising out of or in connection with this Agreement by good-faith negotiation. If it is not resolved within 30 days, it is referred to arbitration by a sole arbitrator under the Arbitration and Conciliation Act, 1996. The seat and venue of arbitration is Bengaluru, and the language is English. This does not prevent a Party from using the ONDC grievance and online dispute resolution mechanisms that apply under the ONDC Network Policy.

11.5 **Entire agreement.** This Agreement and the Confirmation are the entire agreement between the Parties on their subject matter. Each Party confirms it has not relied on any representation not set out in them, subject to the ONDC Network Policies and applicable law. Nothing limits liability for fraud.

11.6 **Amendments.** Amendments, modifications or waivers to clauses 3 to 7 are effective only if agreed by both Parties, including through a Confirmation. The Buyer App may publish a new version of these terms at a new URL by sending it as static_terms_new, with its effective_date, in the bap_terms tag of search at least 15 days before it takes effect. The new version applies only to Orders confirmed on or after that date and accepted by the Seller App in on_confirm. Every earlier version stays online at its own URL for the Orders made under it.

11.7 **Survival.** Provisions that by their nature survive termination, including clauses 7, 9, 10 and 11, continue to bind the Parties.

11.8 **No waiver.** A failure or delay in exercising a right does not waive it, and a single or partial exercise does not prevent any further exercise of that or any other right.

11.9 **Headings.** Headings are for convenience only and do not affect interpretation.

11.10 **Term and termination.** This Agreement comes into force for an Order when the Seller App accepts these terms in the Confirmation. Either Party may terminate it if the other breaches an obligation, representation or warranty, or another material term. Termination does not affect rights and obligations accrued before it.

11.11 **Notices.** Notices to the Buyer App go by email to contactus@quidcash.in, with a copy by post to its registered office. Notices to the Seller App go to the contact details registered on the ONDC Network registry. An email notice is received on the Business Day after it is sent.

11.12 **Severability.** If any provision of this Agreement is held invalid or unenforceable, the rest of this Agreement remains in force, and the invalid provision is replaced by a valid one that comes closest to its intent.

11.13 **Order of precedence.** In case of conflict, the following prevail in this order: the ONDC Network Policy; the Confirmation for that Order; these terms.
